

Automize Azure Automation

EASILY INTERGRATE WITH MICROSOFT AZURE AUTOMATION

Are you also lacking the bridge connection between ServiceNow and Microsoft Azure?

The Azure Automation application now enables full integration of Microsoft Azure Automation into your ServiceNow instance, giving you the opportunity to utilize the power of Microsoft Azure Automation in your workflows from within ServiceNow.

Only requirement is a Microsoft Azure Automation account and a Microsoft Azure subscription.

For more info on our Azure Automation application, please visit the ServiceNow Store [here](#) or contact us directly via the contact information below.

Best regards
Team Automize

Key Features:

- Import of existing Automation Accounts, Runbooks and Jobs
